

**The Planting** of trees is an effort to counter the depletion of our forests and improve the air and water for the future of our children.

**The American Forests Association** says that in addition to providing wildlife habitat, the estimated value of the environmental benefits of a single tree over a fifty year life span is over \$150,000.00.

## Enrich our Communities - Protect our Air, Water and Wildlife.

**Tree**mendous Value!

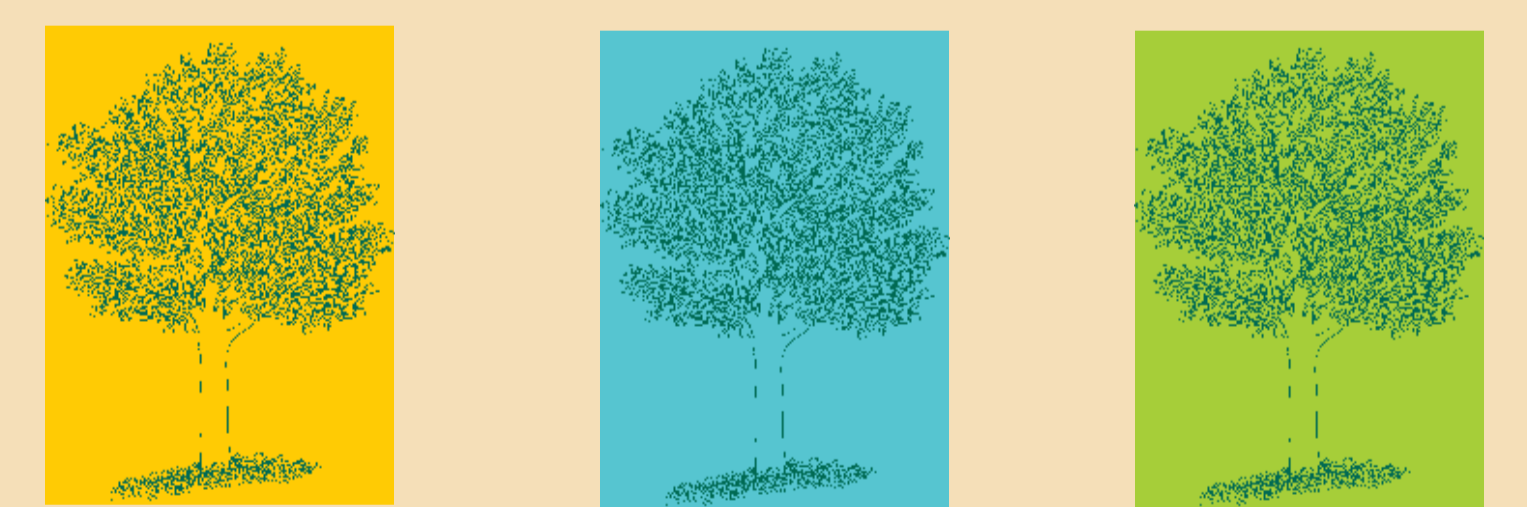

**Trees** grow on Memories!

**The "Celebration Forest" Community Tree Dedication Program** will plant trees in commemorative groves in special Town Parks as an opportunity to recognize life's events, whether large or small, such as birthdays, anniversaries or other special occasions. The Celebration Forests created will be more than a community of trees - they will be a shared record of the life experiences of our families and friends and a legacy of our commitment to enrich our communities. Pick up the **Information Brochure and Participation Form** at your local community centre, the Town's Municipal Offices at 225 East Beaver Creek, the Town's Operations Centre at 1200 Elgin Mills Road East and on the Town's website at [www.town.richmond-hill.on.ca](http://www.town.richmond-hill.on.ca).

## Celebrate Life's Events

**The Donor** will receive a certificate (suitable for framing) marking the occasion. In addition, the Donor will be invited to the tree planting ceremony and be publicly recognized.

**The Trees** will be planted semi-annually, in the spring or fall as part of a community event.

## Now Planting at Phyllis Rawlinson Park
