

## Blackforest Drive and Rosegarden Crescent Reconstruction

### Planned Work

As part of the City of Richmond Hill's ongoing commitment to maintaining a high quality road network, the City will be undertaking the detailed design for the reconstruction of Blackforest Drive and Rosegarden Crescent. The scope of work may include reconstruction of the road to urban standards with new asphalt pavement, curbs, gutters, sidewalk and storm sewers, watermain replacement, and streetlight improvements.

### Impact on Local Residents

City staff and consultants will be in your area in late 2021 and 2022 to undertake preliminary investigations. In order to complete the topographic survey and other data collection, City representatives will need to briefly enter upon your property to locate existing features and collect elevations beyond the municipal road allowance. This action is necessary to ensure that all ground surface details are accurately identified for the design. Thank you for your cooperation.

#### Project Location:

1. Blackforest Drive from Yonge Street to north of Greysfriars Avenue
  2. Rosegarden Crescent from Blackforest Drive to Blackforest Drive
- (See map for Project Location)
