

## Bethesda Sideroad Road Reconstruction

### Planned Road Closure

Please be advised that Fermar Paving Limited will be extending road closure on Bethesda Sideroad between Leslie Street and Woodbine Avenue. The closure, originally schedule from September 9 to September 16, 2024, will now remain in effect until **September 23, 2024**, to complete ongoing culvert and road work. This extension is necessary to facilitate work between Leslie Street and the Highway 404 overpass.

We apologize for any inconvenience and appreciate your understanding as we complete these essential improvements.

### Impact on Local Residents

Emergency vehicles, residents and property owners within the limits of the road closure will have access throughout. Residents and pedestrians outside the limits of road closure will be required to use Bloomington Road and Stouffville Road as an alternative route.
