

2025 PEDESTRIAN CROSSOVER PROGRAM

Planned Work

The City of Richmond Hill is committed to maintaining a high-quality sidewalk network and ensuring pedestrian safety. Currently, the City is exploring potential pedestrian crossover on Farmstead Road between Shell Court and Shirley Drive, subject to budget approval. At this stage, only preliminary investigations are being conducted. Should these improvements move forward, all affected property owners will be notified prior to the commencement of any work.

Impacted on Local Residents

Over the coming year, City staff and consultants will be conducting preliminary investigations in your area, including a topographic survey and data collection. To ensure accurate design, representatives may briefly access private property to gather information on existing features and elevations beyond the municipal road allowance. This step is crucial to capture all necessary ground details.
