

Arnold Crescent, Highland Lane and Elizabeth Street Road Reconstruction

Dear Residents:

Please be advised that the contractor will initially mobilize equipment and personnel to the site to commence underground works at the intersection of Major Mackenzie Drive and Arnold Crescent. Upon completion of the underground works at this intersection, and subject to weather conditions, the contractor will proceed with additional underground installations along Arnold Crescent, Highland Lane, and Elizabeth Street.

Upcoming Key Schedule:

- February to March 2026 – Tree trimming and Tree removals and Sanitary Sewer Drilling under Major Mackenzie Drive on Arnold Crescent from Guinevere Court to Hopkins Street
- April to December 2026 – Continued underground work (watermain, sanitary sewer and storm sewers)
- Spring 2027 to Fall 2027 – Roadwork (curbs, gutters, sidewalks, driveways, boulevard restorations)
- Summer 2028 – Final top asphalt paving

What is Happening?

The contractor will commence mobilization on site to install the sanitary sewer by drilling beneath Major Mackenzie Drive along Arnold Crescent, between Guinevere Court and Hopkins Street, beginning in late February 2026 and continuing through March. During this time, tree trimming and removals will also be undertaken in the area. Upon completion of these activities, underground works, including watermain, sanitary sewer, and storm sewer installations—are scheduled to proceed from April through December 2026.

What to Expect:

During the construction, partial lane closures and traffic delays will occur. Temporary traffic diversions may be necessary at certain times to facilitate construction activities safely and efficiently. Occasionally, a complete road closure may be required for safety and operational reasons. Should a full road closure be

implemented, advance notice will be provided, and additional detour signage will be installed to inform and guide motorists safely through the designated detours.
