

Intersection Improvements at West Beaver Creek Road & West Pearce Street

The City of Richmond Hill is undertaking intersection improvements at West Beaver Creek Road and West Pearce Street to enhance traffic operations and improve safety for all road users. This work includes the installation of new traffic signals.

Construction Schedule

Construction is anticipated to begin in Spring 2026 and is expected to be completed in 2026 fall, weather permitting.

What's Happening?

Road widening and realignment with West Beaver Creek Road and West Pearce Street intersection improvements, including installation of new traffic signals.

What to Expect:

During the construction, partial lane closures and traffic delays will occur. Temporary traffic diversions may be necessary at certain times to facilitate construction activities safely and efficiently. Occasionally, a complete road closure may be required for safety and operational reasons. Should a full road closure be implemented, advance notice will be provided, and additional detour signage will be installed to inform and guide motorists safely through the designated detours.

Reminders:

Private gardens and underground systems (e.g. heated driveways) located within the City's property or boulevard may be impacted by the proposed construction work. The City will not be responsible for any damage to the privately-owned items that are within the City's property.
