

HOME ENERGY SURVEY RESULTS

Richmond Hill recently conducted a home energy retrofit survey to gain a deeper understanding of the community's home energy needs and how the City can better support residents. We received valuable feedback from 171 residents. In addition, 26% of participants accepted the offer to meet with a home energy expert for a 1-on-1 consultation and a more in-depth interview.

WHAT WE HEARD:

What are the biggest barriers to home energy retrofits?

36%
of respondents did not know what home energy improvements to make or where to begin

What are the top 3 motivating factors for residents?

1

Energy cost savings

2

Home comfort

3

Reducing GHG's

How can the City best help homeowners?

Create an energy concierge service

Create ongoing educational programming

Explore financial incentives

Increase access to home energy information

NEXT STEPS

Richmond Hill is committed to supporting residents on their home energy retrofit journey. Based on survey feedback we are exploring financial programs, developing educational materials and continuing to deliver free home energy workshops.
