

## Coons Road Reconstruction

### Planned Design Work

The City is undertaking the detailed design for the reconstruction of Coons Road. The scope of work includes removal of ditches and culverts, boulevard regrading, pavement reconstruction, new curb and gutter, new sidewalk, watermain replacement, new storm sewer system, sanitary sewer replacement/repair and streetlight upgrade. Construction is scheduled to start in spring 2027.

### Virtual Public Information Centre

**Date:** Thursday, March 26, 2026

**Time:** 6:00 p.m. – 8:00 p.m.

**To Register go to:** <https://coonsroadpic.eventbrite.ca>

You are invited to attend a virtual Public Information Centre where City staff and design consultants will provide a presentation and answer questions about this project.

This meeting will be a Zoom Webinar for residents of Coon's Road. Please register through the Eventbrite link provided in this notice. After you register, a confirmation email will be provided to you which will include the link (join the meeting here) which you can click on to join the meeting at 6:00 p.m. on March 26. You do not need to have a zoom or Eventbrite account to participate in the public information centre

The format for the PIC will include a presentation followed by discussion. You will be able to ask questions and provide comments by typing these into the meeting Q and A. The City's Facilitator Sue Cumming, Cumming+Company will overview how to do this when the meeting starts, will read aloud all questions and comments for the project team to address and will ensure that your comments are noted.

## Online Comment Form

Public comments are accepted online until **Friday, April 10, 2026**. To review the proposed plans and provide feedback through the online comment form, please visit [RichmondHill.ca/CapitalProjects](https://RichmondHill.ca/CapitalProjects) or scan this QR code.

If you do not have access to the website or would like to receive the materials in hardcopy format, please contact the project lead.

Thank you in advance for your input.

## Preparation for the Construction

The existing ditches will be filled and new storm sewer system will be installed as part of the road reconstruction. All private installations (e.g. sump pump drain pipes, fences, plants, decorative features) within the City's right of way shall be removed by the homeowners before the road reconstruction. Additional information regarding sump pump discharge requirements is provided in Appendix 1.

If you have any questions, please contact the project lead. City staff and consultants will also be available to answer questions during the Virtual Public Information Centre on March 26, 2026.

### Contact/Project Lead:

Kyle Paterson, Project Manager
