

Bayview Hill Park Revitalization (Phase 1)

Planned Construction Work

The City of Richmond Hill is pleased to inform you that construction at Bayview Hill Park will commence shortly. The work will include site demolition, tree removals, site servicing (gas, sanitary, storm, water, electrical, subdrains and communication), washroom building, splash pad/ice rink, playground, multiuse sport court, tennis and pickleball courts, site grading, concrete and asphalt paving, shade structures, ornamental fencing with piers, site furnishings, signage, tree and shrub planting, seeding and sodding. Construction is anticipated to be completed by Summer 2025, weather permitting.

As a measure of safety, sections of the park will be closed during construction and residents are asked to refrain from entering the construction areas. Thank you in advance for your patience during the construction phase of this project.
