\$100.00 per LOCATION

TERMS AND CONDITIONS

Scheduling of FLOW TESTS is coordinated by the Operations Centre reception desk at (905) 884-8013. The request will be forwarded to the Water and Waste Water Section for review, and the applicant will be contacted by the receptionist to confirm a suitable date and time.

The Town of Richmond Hill reserves the right to require the applicant to notify affected businesses or residents of the proposed work. The applicant will be provided with details of the extent of the notification to ensure all reasonable precautions are taken in such a situation.

Typically, FLOW TESTS are performed during the summer months of May 01 to November 01. Based on climatic conditions, the Town of Richmond Hill may adjust the permissive period.

The applicant is responsible for all equipment necessary for the performance of the FLOW TEST. The Town's Certified Operator is responsible for the operation of the fire hydrants to facilitate the work. No unauthorized use of fire hydrants is permitted. The Town's Certified Operator will only operate one fire hydrant at a time to minimize the effect on the distribution network.

The applicant will ensure appropriate measures are taken to minimize and control traffic interruptions, in accordance with M.T.O. Book # 7.

The applicant will forward copies of all data collected to the Supervisor of Water and Waste Water by FAX at (905) 884-0395
