

Standard Festival and Event Stage Plot

Stage

The Main Stage will be monitored by one Front of House station and at all times will include monitors, LD and stagehands for troubleshooting with Entertainer Participants if required. Entertainer Participants are encouraged to supply their own qualified Front of House/Monitor Operators if they choose. The stage will be a StageLine SL100 (total stage deck of 24'w x 20'd) or Wenger Show Mobile (total stage deck of 28'w x 6.6'd), and includes a monitor mix position off-stage USL. The main PA includes up to 12 mixes of monitors on wedges. Entertainer Participants are also encouraged to carry any of their own backline, however to expedite each Entertainer Participant's setup time and keep changeovers to a minimum, a standard backline package will be available which will include the following (or equivalents):

Drum Set: Yamaha Oak Custom 5-pc

Bass Amp: Ampeg SVT 4-Pro with 4x10 Cabinet

Keys: Roland RD300nx with KC-350 Amplifier

Guitar Amp: Fender Twin and Fender Hot Rod Deluxe

Note: Entertainer Participants are to carry their own "breakables" - sticks, drum pedal, snare drum, cymbals, instrument cables, etc.

Hospitality

- Entertainer Participants will be given access to a back-stage/hospitality area prior to their performance time
- Entertainer Participants are asked to refrain from use of illicit substances including smoking and alcohol while on Richmond Hill property as per Corporate Policy
- Entertainer Participants are asked to be ready a minimum of 10 minutes prior to their call time
- A runner will greet the Entertainer Participants to escort them to the stage location prior to their call time
- Performance riders requesting additional hospitality outside of what is listed including sound checks must be arranged at the time of participation confirmation by contacting the Event Representative

Note: Entertainer Participants are to follow the Event Services Participation Undertaking confirmation rules as outlined. Equipment must be dollied into the site as vehicles are not permitted on the grounds. Due to liability and limited resources, staff and volunteers are strictly prohibited from transporting any third-party equipment. Sound checks must be arranged at the time of booking.
