

Crosby Park Softball Diamond Improvements

Planned Construction Work

We are improving the softball diamond at Crosby Park, including the replacement of the concrete light poles in the outfield, upgrading the floodlights to LED and adding a protective screen/netting along the parking lot foul line.

Construction is scheduled to begin shortly and be completed in the spring 2025, weather permitting. As a measure of safety, a portion of the parking lot will be closed off periodically while work is being done and residents are asked to refrain from entering the construction area. Thank you in advance for your patience during the construction phase of this project.
